

Iola Independent School District

Dear Parents/Guardians,

Our school is now using Schoology, an integrated learning management solution that provides course management, mobile learning, and support for system-wide communication. Schoology enables our students, parents, and teachers to engage with learning materials and their school community from the classroom and beyond. We look forward to using Schoology in our classrooms starting the first day of instruction to enhance connectivity and communication across Iola ISD.

With Schoology, students can digitally submit homework assignments, review grades, participate in interactive discussions, receive announcements and feedback, take tests, write academic blogs, and more. As a parent, you will be able to view your child's activity within the platform.

You and your child will be given login credentials at the beginning of school. Teachers will email parent access codes to parents. We value your participation in your child's education. Student progress and activity will be monitored by faculty to ensure a safe, secure, and controlled environment.

If you have any questions regarding Schoology, please email your child's teachers. Additionally, support materials can be located on the Schoology tab within the district website, along with many valuable resources at support.schoology.com

We are excited for your involvement in your child's education, and we encourage you to sign up for a parent account as soon as you receive the login credentials. Schoology will be for remote learning and in-class instructions.

Thank you for your support as we begin this new adventure of the 2020-2021 school year.
